ABOUT COMPANY

PharmZi is a comprehensive healthcare solutions company in the field of pharmacovigilance, fully dedicated towards its services to Pharmaceutical Industries and other Healthcare domain mainly focusing on literature surveillance activities for your products from the most relevant available literature sources.

PharmZi literature specialist team has 10+ years experience in global pharma, with a focus on literature. Working with the customer, we can develop the search strategy and undertake sensitivity testing to ensure that search criteria are robust and appropriate for the purpose of the literature search. As a part of the literature screening pharmacovigilance process, PharmZi assists organizations with specialized literature monitoring in pharmacovigilance services. PharmZi team ensures that safety is monitored right from global literature, and local literature with full-text review in identifying ICSRS to Signals and other safety information for inclusion in Periodic Safety Update Reports (PSURS).

VISION

"Global leadership in specialized pharmaceutical services addressing unmet medical needs and patient safety".

MISSION

"To promote patient and product safety by enabling our customers to perform effective drug safety surveillance and medical information activities that are compliant with regulatory requirements".

WE HAVE OVER 10 YEARS EXPERIENCE

FOLLOWING BEST PRACTICES LIKE VALUING CUSTOMERS' TIME, HAVING A PLEASANT ATTITUDE, AND PROVIDING KNOWLEDGEABLE AND RESOURCEFUL RESOURCES, A STEP FURTHER TO EXCEED — RATHER THAN JUST MEET — EXPECTATIONS.

SOLUTION FOR YOUR NEEDS

01 GLOBAL AND LOCAL LITERATURE COVERAGE

02 MEDICAL SAFETY DATA REVIEW

03 TRANSLATION SERVICES

04 FULL ARTICLE/ FULL PUBLICATION/
FULL TEXT PROCUREMENT SERVICE

05 FOLLOW-UP SERVICES FOR
GATHERING MISSING OR ADDITIONAL
INFORMATION

BEST SERVICES

GLOBAL (INDEXED) LITERATURE MONITORING

PharmZi provides the service of performing weekly monitoring of scientific and medical publications in global databases like PubMed, Embase, Medline, etc. with specific search strings simplifying the literature screening pharmacovigilance process.

FOLLOW-UPS WITH AUTHORS ES 03

It is important to collect all the missing or additional safety information which does not cover enough even after procurement of the full text.

PROCURING FULL TEXTS

Full-text articles simply provide more information – including detailed descriptions of methods and protocols and the complete study results reporting original research conducted by the author which is always not covered under abstracts or summaries of the published articles.

BEST SERVICES

PHARMAZI DESIGNED APPLICATION

PharmZi developed its in-house web-based tool - PharmZi Lite to streamline the literature management process, which is aimed to create a simple, customizable, and semi-automated literature review and tracking tool to help monitor safety and to meet the associated regulatory requirements.

TRANSLATION SERVICES

The main purpose of scientific translation is to interpret texts in academic fields which may often be somewhat complex. So technical knowledge of the subject is critical in order to be able to understand it and provide accurate, truthful, and consistent information.

JOURNAL SUBSCRIPTION SERVICES

At PharmZi, we are not just only monitoring the freely available journal but also taking care of subscribing for paid Journals Simplify each step of your subscription management workflow with qualified vendors and give users direct access to full text and a better overall library experience.

PROVEN QUALITY AND COMPLAINE

OUR GLOBAL PHARMACOVIGILANCE TEAM COMPRISED OF PHYSICIANS, PHARMACISTS, SCIENTISTS, AND HEALTH CARE PROFESSIONALS COLLABORATES WITH VARIOUS GROUPS, SUCH AS CLINICAL DEVELOPMENT, REGULATORY AFFAIRS AND OTHERS, TO ENSURE THE SUCCESS FOR YOUR REQUIREMENTS.

LET'S MAKE SOMETHING AWESOME TOGETHER
